

# HYBRID PHOTO & VIDEO

## How Your Day Unfolds (With Anthony)

Your wedding day is full of moments that feel small in the moment — but mean everything later. That's why Anthony works with a simple, proven structure that keeps your day relaxed, natural, and beautifully captured.

### Prep & Getting Ready

We start with the **boys' prep first**, because it's the best way to get them relaxed and comfortable before the ceremony. From there, we move to the **girls' prep**, capturing all the details that make your day uniquely yours — makeup touch-ups, dress shots, the girls in matching PJ's, a cheeky glass of wine, and those emotional moments as the bridal party helps the bride into her dress.

Anthony captures both photo and video throughout the prep, so nothing is missed — from candid laughter to quiet, intimate moments.

### Ceremony Coverage

Once everyone is ready, Anthony heads to the ceremony venue early to set up **multiple cameras**. When the bride arrives, the ceremony is captured from **three video cameras** while Anthony shoots photos on a separate camera — ensuring every angle is covered with zero missed moments.

### Family & Bridal Party Photos

Immediately after the ceremony, we flow into:

- **Family + group photos**
- A quick **10-minute break**
- Then the **bridal party photos**

Anthony captures full group shots, separate girls and boys shots, and a mix of candid, fun, and lightly posed images for variety.

Then it's time for the couple to have a moment together — a relaxed, intimate session just for the two of you. This is your chance to soak it in, laugh, and enjoy the quiet before the reception begins.

### Reception Coverage

Once the reception kicks off, the energy changes — and Anthony is right there to capture it all. He'll film and photograph:

- Bridal entrance
- Cake cutting
- Speeches
- First dance
- Best wishes

### **Guest Messages (A Fun, Interactive Touch)**

During the reception, Anthony will go around with a mic attached to his camera to capture short messages from guests who want to be involved. It's like a "pulse phone" moment — but better, because you can actually see your loved ones speaking. It's a fun, interactive activity that creates unforgettable memories and adds an extra layer of emotion to your film.

---

This structure is **fun, creative, and designed for absolute value**, so you get a full wedding story captured beautifully — without feeling rushed, staged, or overwhelmed.
